*“MSP provides brands with the canvas to paint an authentic outdoor voice that is relevant to their audience.”*

*Ryan Johnson, Social Media Specialist Mercedes-Benz USA*

## EXPERIENCE

*“My former job was with Discovery Channel’s Design and Creative Services group, so I am very familiar with the creative process. That experience made it that much better to be able to share our own vision, only to see MSP make it even better through their professional twists. As an owner in the program, it was reassuring that the MSP crew treated me the same way I expect my clients to be treated. The finished product followed my vision without the need to hold anyone’s hand.”*

*Jeffrey Humberson, Driven Experiences*

*“We hired MSP and from the first conference call to the last minute changes and edits to our projects they delivered above and beyond our expectations. From handling celebrity talent, to arranging impossible to find props like a 10’ long live alligator to making the creative concepts of our content better, MSP was incredibly professional, efficient and resourceful. I can’t wait to work with them again.”*

*Greg Randolph, Decker VP of Marketing*

*“Beyond unparalleled imagery, narrative and action, MSP’s true secret weapon is audience. Their 20-plus year legacy has created a truly global platform for activation and engagement with a highly passionate audience at the very center of the adventure lifestyle.”*

*Steve Metcalf, Under Armour*

*“I’ve partnered with Matchstick on a number of productions for more than a decade. They are always working to progress their filmmaking and are willing to take risks. We’ve shared an Emmy nomination and some amazing experiences over the years.”*

*Ben Bryan, Red Bull*

# FROM STORYBOARD TO FINAL DELIVERY.

## COMPREHENSIVE PRODUCTION SERVICES

Matchstick can manage all aspects of your production within budget. We can work on any size project and within any allowance.

We deliver the finished project from our top-end editing suites. Once the final creative vision has been fulfilled we help you capitalize on the best possible distribution opportunities for your investment.

We pride ourselves in our knowledge and efficiency in providing top of the line imagery. With over two decades of experience behind the camera in all corners of the world, we have refined our skills to provide top-dollar production at the best possible value.

- SOUND RECORDING & MIXING
- MAXIMIZING DISTRIBUTION

## AERIAL / STABILIZED CINEMATOGRAPHY

# INNOVATIVE CINEMATIC TECHNIQUES, NO MATTER THE ENVIRONMENT.

[VIEW AERIAL REEL](#)

**MSP owns a 6k resolution gyro-stabilized camera system.**

The camera is a lightweight Super 35 format digital production camera system. Easily integrated onto cable and rail systems, aircraft, automobiles, boats, and other mobile platforms, this system brings 6k digital production to new places. Matchstick's fleet of camera vehicles (including an A-star B3 helicopter, Chevy Silverado 2500, and Polaris Ranger) are on-call for whatever the job requires. For projects with budget restrictions or less demanding aerial requirements, Matchstick offers drone services as well. The current flagship drone is the DJI Inspire2 remote-controlled aircraft, piloted by one of our FAA-certified drone operators.

# OVER 25 YEARS OF CREATING AWARD WINNING CONTENT

## POST PRODUCTION

4k UHD experienced VR and 360 video. MSP in house studios feature full finishing sound and UHD HDR color capabilities. We also offer a complete array of design and graphics packages.

## UHD STOCK FOOTAGE

Our footage library contains hundreds of hours of material suited to nearly any type of project - natural landscapes, urban environments, action sports, wildlife, time-lapses, character portraits, and much more. Whether your project needs one or two supplemental shots from our catalog or requires an entire scene from scratch, our editors have what you're looking for.

## INCREDIBLE LOCATION

**We are the Voyeurs of the American West** having shot from the deserts to the northern reaches of the Arctic. We are deeply in touch with the natural world.

Our headquarters is located in the heart of Rocky Mountains, in convenient proximity to breathtaking locations throughout southern Colorado and Utah. With personnel, equipment, and a wide array of camera vehicles at our disposal, we are within quick striking distance of some of the most amazing areas of the American landscape.

# OUTDOOR ADVENTURE SPECIALISTS

Matchstick has traveled to the wildest places on earth in search of stunning imagery, from remote Alaska and Norwegian locations, to the deserts of Africa and Utah.

MSP can preform in the outdoors like few companies can. It's our love of the natural world and the beauty of this planet that helps us capture incredible images.

*"We are the authentic voice for the outdoor space and will make sure your brand message is on point because we are living it."*
